"6.5 hours"	"6.50"
"7.0 hours"	"7.00"
"7.5 hours"	"7.50"

Else

Durations for Days

Result Description	Durations (9) Value
"Quarter of a day"	"0.25"
"Half a day"	"0.50"
"Three quarters of a day"	"0.75"

1	**Show documents grid** Determines whether employees can upload documents when they submit a leave request. You need to update this setting here and on the View LeaveRequest Form Flow.
2	**Max past days** Restricts the number of days in the past that employees can apply for leave. You must enter a value. If you do not want to a restriction, then enter a large number. If you enter 0, then only the current day is available.

3	**Max future days** Restricts the number of days in the future that employees can apply for leave. You must enter a value. If you do not want to a restriction, then enter a large number. If you enter 0, then only the current day is available.
4	**Default start time** Enter the number of hours past midnight * 60 minutes. For example, if the default start time is: 8am, enter 8 * 60 5pm, enter 17 * 60 You must enter a value. If you leave the field blank, then a validation error appears. If you type "nothing" or delete the activity, then the start time will default to 00:00, which is midnight.
5	**Show available balance** Leave types or Leave credit codes that you specify here will display an employee's *Available balance* when they select a leave reason. You can select AL, SL, LSL and Leave credit codes. 6	**Warn compliance** — See Compliance Check Level.
7	**Enforce compliance**
8	**Duration for Hours** — You can control the items in the *Units required* combo list that employees use to complete a request for Less than 1 full day.  Durations are set up by default, but you can change the *Descriptions* and *Values* as required. To add additional duration items, drag and drop *Create combo item* sub-activities to the required place in the list. By default the units displayed in the *Duration* combo list will be the same for keyed, rostered and profiled employees. If you want to set up different durations for each leave request setting type, then you can set up another type decision, such as employee leave table or roster period.
9	**Duration for Days**
